

FEBRUARY 2022

Codsall Community Nursery

MONTHLY NEWSLETTER

Dates for your Diary!

FEBRUARY

NSPCC Number Day

On 4th Feb we will be taking part in NSCPP number day, where we will be including even more number fun, incorporating numbers throughout the nursery, from weighing ingredients to make playdough to counting how many pieces of fruit we have eaten.

Big Birdwatch

We will be continuing our Big Birdwatch over February. The children will be using their binoculars to see and identify different birds. Children will also be making their own bird feeder to take home and hang in the garden.

Chinese New Year

Children will be exploring Chinese artefacts, and identifying the different animals on our Chinese calendar. During our circle time we will be learning our new Tiger Song and also making lanterns

HALF TERM HEADS UP!

Week commencing 21st Feb is half term week for local schools.

We have limited holiday club spaces for children aged up to 5 years to attend our setting during this half term holiday. If you or someone you know would like further information, please speak to Bally.

Oral Health Care

IS YOUR CHILD REGISTERED WITH A DENTIST?

Over the last couple of years, under lockdown restrictions, regular dentist visits have decreased, meaning many children have never visited the dentist and may not be registered with one. Being registered allows children to access dental care and get used to the environment in a relaxed and calm manner, reducing the risk of tooth problems down the line. Here's how you can support your child's oral healthcare

1. Visit the dentist

Take your child with you when you visit the dentist and let them sit in the chair, knowing there is nothing to fear.

2. Brush regularly

Even small babies can get used to chewing on a toothbrush or having their gums wiped. When those first teeth appear, brush twice a day with a child sized toothbrush and keep it fun!

3. Reduce sweet treats

We all love a sweet treat every now and again, but too many sugary drinks and food can be harmful to little teeth.

4. Communicate with your Key Person

Let us know if you are worried or have a concern about your child's oral health, we will support you and your child.

What a Busy Month!

Firstly, we would like to thank you for your patience in our first month, setting up payment processes, and getting our phone lines up and running. It's been wonderful to welcome so many new families into the nursery and we are getting busier by the day. The children have been exploring the new environments and so many parents have commented on the difference in their child's confidence, language and communication, which is wonderful to hear! Your feedback is always welcome.

Our children love building in the nursery so if you have any of the below items, please bring them in for us:

- Kitchen roll tubes
- Drink bottles
- Cardboard boxes
- Cereal boxes
- Egg boxes

"Seeing and hearing about him hugging carers at the nursery and fall asleep in their arms makes me so content and happy that he very much feels safe and loved here. Thankyou for making him feel so safe. We've seen a huge difference in him already!!"

CHLOE,
PARENT
